Abracheva

MARIANA ABRACHEVA

Independent artist

Lives and works in Lausanne (Switzerland).

French with Bulgarian roots, she started her career in the USSR at the School of painting and decorative arts. Diploma of the University of Applied Arts in Varna (Bulgaria).

Sculpture

Her interest in sculpture / assemblage originates from her desire to give space to her ideas in 3D. She creates a fictional world composed of different objects selected for their form, colour and properties. These objects are both the subject and the component of her works. Arranged under the form of ensemble and accumulation, they are presented in unusual ways and enable the observer to gain a new perspective.
